Note for Thomas, Wanda

From: Sicherman, Fred

Date: Mon, Aug 1, 1994 9:53 AM

Subject: Weekend outage

To: NY 120/9 Exec Secretaries; NY All DataNet Users; NY CA-Mail server users; NY Execs All Users; NY Finance All Users; NY IS 100/9; NY IS DEVELOPMENT; NY MKT SERV Mail Users; NY Mktg All Users; NY OP Pkg Mail Server; NY SI ALL ; NY SI Mail Server Users

This note comes to us from Janet Whetstone in Richmond:

Please inform your customers that network access between Richmond and New York will experience outages on Saturday, August 6, 1994. Anyone dialing in and needing access to NY servers will be affected. Likewise, anyone in NY needing access to Richmond resources or Business Partners will be affected.

Teams of personnel from PMMC, PMI, and PM USA will be on-site (120 Park, Rye Brook, Richmond) from Friday, August 5th, through Monday, August 8th, to implement the replacement of the triangle's wide-area bridges with Cisco routers. This major project has been in the planning stages for almost a year and is expected to greatly improve the network availability and reliability of all PM locations. More details will be provided to you so that you can inform your customers of the planned outages that are required for this upgrade.

Thanks,
Janet
